## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 4-6, 8, 10-15, 41-47, 49, 51, 52, and 59 are rejected under 35 U.S.C. 102(b) as being anticipated by Motz et al #6,094,860. Motz et al discloses a landscape control structure comprising a lower support structure 18 and a plurality of spines 20 attached to the lower support structure. The spines having a base end and a distal end. The spines being arranged in discreet rows and may have distal ends that are curved and/or angled acutely to the lower support structure. The spines being capable of holding landscape material such as mulch.
3. Claims 1, 4-6, 8, 13-15, 41-47, 49, 51, 52, and 59 are rejected under 35 U.S.C. 102(b) as being anticipated by Visser #3,517,514. Visser discloses a landscape/erosion control structure comprising a lower support structure 20 and a plurality of spines 21 attached to the lower support structure. The spines having a base end and a distal end. The spines being arranged in discreet rows. The spines being capable of holding landscape material such as mulch.

### ***Allowable Subject Matter***

4. Claims 7, 9, 16-40, and 61-80 are allowed.

Art Unit: 3673

5. Claims 2, 3, 48, 50, 53-58, and 60 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

6. Applicant's arguments filed 11/15/04 have been fully considered but they are not persuasive. Both Motz and Visser disclose spines that are "relatively" stiff and are capable of holding landscape material such as mulch.

***Conclusion***

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
